SCFB STEPHENSON COUNTY FARM BUREAU®

Enhanced cleaning measures. Informed employees. Protected guests.

At Windstar Lines, our top priority has been and always will be your safety. We have upgraded our already stringent cleaning and safety practices to support the health and wellness of our employees and customers.

Here's what you need to know:

We have added multiple layers of stringent cleaning and disinfecting:

- An electrostatic disinfectant and anti-microbial fogger that kills viruses on contact and forms a protective shield is applied on every surface of the motorcoach.
- A broad-spectrum disinfectant, will be used to clean commonly used areas (restrooms, armrests, seat belts, handrails, overhead storage bins) before every trip.
- Hand sanitizer will be available for passengers.
- We use high efficiency air filters onboard our motorcoaches, which remove 99.97% of airborne particles—similar to technology found in hospitals.
- We have aligned these stringent cleaning policies and procedures with guidance from the Centers for Disease Control and Prevention.

We have added new physical-distancing practices:

- First row behind driver to remain empty at this time. (52 seats available)
- Drivers will be wearing masks as of July 1, 2020.
- Number of guests is up to each individual group (up to 52).

Did you know:

- The FAA requires the air in a cabin of an aircraft to be exchanged a minimum of 15x per hour. Most airlines do 20. Van Hool motorcoaches exchange air 30-100x per hour!

We're here for you!
